

LATAM Salary Benchmark Report

Live market data for tech hiring decisions

Report for

AI / ML Engineer · Brazil · 7 Years experience · Senior

Local market mid (USD/year)

\$101,000

Remote USD (US/EU company)

\$192,000

(Remote uplift +90%)

5-Country Comparison (same role, same seniority)

AI / ML Engineer · Senior

COUNTRY	LOCAL (USD)	REMOTE (USD)	UPLIFT
Brazil <--	\$101,000	\$192,000	+90%
Mexico	\$101,000	\$192,000	+90%
Colombia	\$85,500	\$162,500	+90%
Argentina	\$108,500	\$182,500	+68%
Chile	\$108,500	\$182,500	+68%

<-- = Selected country. Use the live calculator to see real-time data for each market: intel.wprotalents.lat/?role=ai_ml&country=BR&years=7

Methodology

BASE_SALARY (local market mid-anchor for 3-6yr) is multiplied by SENIORITY_MULT (junior 0.59, mid 1.00, senior 1.55, staff 2.17) and rounded to the nearest \$500. Remote-USD is local × REMOTE_MULT (BR/MX/CO 1.70, AR/CL 1.50) × ENGLISH_MULT (conversational 1.12, fluent 1.28, bilingual 1.40). The remote multiplier is smaller for AR/CL because local pay there is already high; larger for CO/BR/MX because local is lower and remote contracts close the gap to US/EU bands.
